

'Seaworthy Sight Reading'

Note Search!

My Personal Best Record Chart

Use this chart to track your 'Note Search' flashcard sight reading times!
You can clip or stick it into your workbook or display folder. Have Fun!

1. Start in the first row & write the date at the top of the first box, which level and clef you are doing. Your teacher will time you as you name & play a set of cards.
2. After you complete your set of 'Note Search' sight reading cards, record your time. After a few weeks circle your best time and then move on to the next level!
